

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

★ ★ ★ ★ ★

IN THE MATTER OF:

THE APPLICATION OF KENTUCKY	)	
UTILITIES COMPANY TO MAKE	)	CASE
CHANGES IN RATE SCHEDULE	)	NO.
STREET LIGHTING SERVICE AND	)	9052
PRIVATE OUTDOOR LIGHTING	)	

O R D E R

On May 7, 1984, Kentucky Utilities Company (K.U.), in compliance with the Commission Regulations on Tariffs (807 KAR 5:011), submitted its application for changes in Street Lighting Service (St.Lt.Sv.) and Private Outdoor Lighting (P.O.Lt.) rate schedules of its current tariff. There were no intervenors of record nor was a hearing conducted in this matter.

K.U. proposed two changes to the St.Lt.Sv. Schedule. The first change was to the section Condition of Service, the paragraph numbered 6, and the present and proposed paragraphs are as follows:

PRESENT STREET LIGHTING

6. Any installation costs which are to be borne by the customer, in accordance with the foregoing paragraph 4, should be paid at the time of installation but, if desired, may be paid in monthly installments, to include fixed costs, over a period not to exceed five (5) years.

PROPOSED STREET LIGHTING

6. Any installation costs which are to be borne by the customer, in accordance with the foregoing paragraph 4, should be paid at the time of installation.

K.U. stated that none of its customers were paying any installation cost over a 5-year period and had not used this option in the past.

The second change to the St.Lt.Sv. Schedule was to eliminate the rate for Fluorescent fixtures. The rate has been restricted to those fixtures in service on February 15, 1977, and K.U. no longer serves any customers under the fluorescent fixtures.

The proposed changes in the P.O.Lt. schedule are under the section titled "Rate" and the present rate and proposed rate are as follows:

PRESENT PRIVATE OUTDOOR LIGHTING

<u>Monthly Charge</u>	<u>Approx. Lumens</u>	<u>Type Light</u>	<u>KW Rating</u>
\$ 7.91	8,600	Mercury Vapor	.214
\$ 9.60	22,000	Mercury Vapor	.468
\$15.22	50,000	High Pressure Sodium	.485

PROPOSED PRIVATE OUTDOOR LIGHTING

<u>Monthly Charge</u>	<u>Approx. Lumens</u>	<u>Type Light</u>	<u>KW Rating</u>
\$ 7.90	7,000	Mercury Vapor	.207
\$ 9.60	20,000	Mercury Vapor	.453
\$15.22	50,000	High Pressure Sodium	.485

The effect of the proposed changes is a reduction in the rate of one cent in the change from 8,600 lumens to 7,000 lumens mercury vapor light, which is consistent with the current rate for the Customer Outdoor Lighting Schedule 7,000 lumens mercury vapor light. The change from present 8,600 and 22,000 lumens ratings to proposed 7,000 and 20,000 lumens would represent the average lumens, and the change would produce greater compatibility among the P.O.Lt., St.Lt.Sv. and Customer Outdoor Lighting schedules.

#### FINDINGS AND ORDERS

The Commission, after examining the evidence of record and being advised, is of the opinion and finds that the changes in the St.Lt.Sv. Schedule and the P.O.Lt. Schedule proposed by K.U. are fair, just and reasonable and should be approved.

IT IS THEREFORE ORDERED that the St.Lt.Sv. Schedule and the P.O.Lt. Schedule proposed by K.U. be and they hereby are approved for billings on and after June 1, 1984.

IT IS FURTHER ORDERED that K.U. shall file with this Commission, within 30 days of the date of this Order, its revised tariff sheets as proposed in its application and approved herein.

Done at Frankfort, Kentucky, this 14th day of June, 1984.
